Why LWW Health Library?

LWW Health Library delivers trusted health science education and clinical content directly to students, faculty, and staff through a single portal – providing interactive online access to essentials texts, procedure videos, images, real-life case studies and quiz banks specifically tailored for the specialty. In addition to health science schools and hospitals, these resources are a must-have for related educational programs – ensuring you have the resources you need to effectively support your students foundational learning and clinical practice.

Key Features LWW Health Library:

A single portal to foundational and basic sciences resources, as well as rich multimedia ancillaries for teaching, learning, and practice.

- **Highly-rated references:** Trusted, core texts from Lippincott Williams & Wilkins, making it a one-stop, digital portal for authoritative content paired with industry leading functionality.
- **Updated content:** Ongoing content updates as new editions publish, as ancillary content is acquired, and/or as authors supply clinical, practice changing updates to their content
- **Advanced semantic search:** Guides users to results displayed by title, chapter, topic, and/or type of resource
- **PubMed widget:** Links to the most relevant PubMed results based on the chapter or key terms the user searches
- **Responsive Design:** Browse content on your computer, tablet or smartphone with ease
- **Print/save a chapter:** Users are able to download chapters via pdf, for easy access to content when offline – for note taking or to print
- **Multimedia ancillary content:** Access images, Q&A, patient education handouts, and more
- **Customizable collections:** Purchase each specialty collection individually, or as a bundle across multiple specialty areas.

Additional Features in LWW Health Library ONCOLOGY:

- **First-rate multidisciplinary content** from internationally recognized oncology and hematology textbooks
- **Quarterly updates** exclusively through LWW Health Library, ensuring users receive the most up-to-date reference material, to better diagnose and treat their patients.
- **Related content** links to other chapters and assets in the collection for quick access, driven by powerful semantic tagging.
- **Subject list** displays on textbook browse page for easy navigation, allowing users to filter by subject in search results.
- **Download images directly into a PPT template**
- **Over 10,000 high-quality images** to support teaching and presentations.

Using the LWW Health Library ONCOLOGY:

- **A fellow preparing a presentation** can easily search updated textbook coverage and journal citations on a very specific topic and can output related images directly to their PowerPoint deck.
- **A fellow can easily review a specific chapter** of DeVita, Hellman, and Rosenberg's Cancer: Principles & Practice of Oncology, 10th Ed – by accessing online and/or downloading the specific chapter text to read offline.
- **A fellow wants to review their knowledge of hematology** by simply navigating to the "Self-Assessment" browse in the Health Library and then works through over 200 case-based hematology questions in the **quiz bank engine**.
- **An oncologist preparing for a meeting with a patient** can check NCCN guidelines as well as access the details on particular cancer types all within one portal.
- **A Librarian chooses the Health Library ONCOLOGY** over e-book options in order to deliver a full set of oncology and hematology content in a user-friendly platform.
