

Introducing the first confirmed titles from the exciting new **AAS-IOP Astronomy** collection.

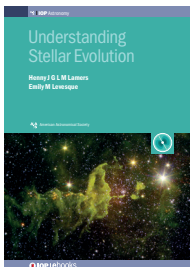

Astrophysics of Red Supergiants

Author: Emily Levesque

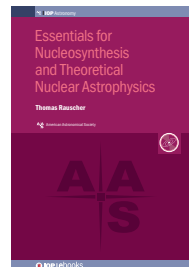

Time-Domain Studies of the Andromeda Galaxy

Author: Chien-Hsiu Lee

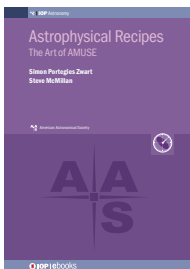

Understanding Stellar Evolution

Authors: Henny J G L M Lamers and Emily Levesque

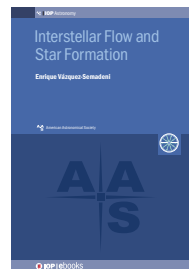

Essentials for Nucleosynthesis and Theoretical Nuclear Astrophysics

Author: Thomas Rauscher

Astrophysical Recipes: The Art of AMUSE

Authors: Simon Portegies Zwart and Steve McMillan

Interstellar Flow and Star Formation

Author: Enrique Vázquez-Semadeni

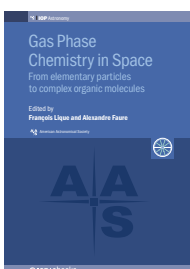

Eclipsing Binary Stars

Author: Andrej Prša

Radio Pulsar Statistics

Author: Duncan Lorimer

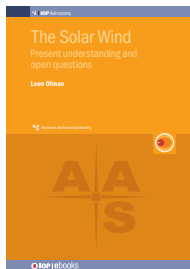

Gas Phase Chemistry in Space: From elementary particles to complex organic molecules

Edited by: François Lique and Alexandre Faure

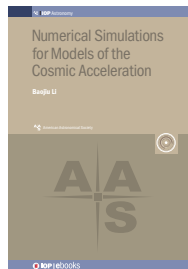

Gamma-ray Bursts

Author: Andrew Levan

The Solar Wind: Present understanding and open questions

Author: Leon Ofman

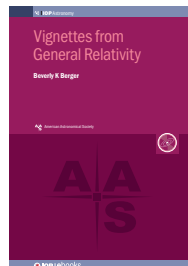

Numerical Simulations for Models of the Cosmic Acceleration

Editor: Baojiu Li

Extragalactic Novae: A historical perspective

Author: Allen Shafter

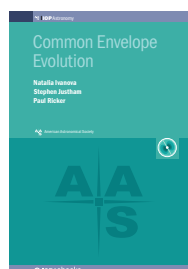

Vignettes from General Relativity

Author: Beverly K Berger

ExoFrontiers: Big questions in exoplanetary science

Edited by: Nikku Madhusudhan

Common Envelope Evolution

Authors: Natalia Ivanova, Stephen Justham and Paul Ricker

The series includes publications in the following topics:

GALAXIES AND COSMOLOGY

INTERSTELLAR MATTER AND THE LOCAL UNIVERSE

STARS AND STELLAR PHYSICS

EDUCATION, OUTREACH AND HERITAGE

HIGH-ENERGY PHENOMENA AND FUNDAMENTAL PHYSICS

THE SUN AND THE HELIOSPHERE

THE SOLAR SYSTEM, EXOPLANETS, AND ASTROBIOLOGY

INSTRUMENTATION, SOFTWARE, LABORATORY ASTROPHYSICS AND DATA

Are you interested in purchasing this collection for your library?

The first release of the AAS-IOP Astronomy ebooks collection contains 10 titles and is now available to purchase. All books included will be available in perpetuity at your library with no maintenance fees at any time. Visit iopscience.org/books/aas for more information.

To discuss purchasing options and titles included in Release 1, please contact your Regional Sales Representative, or contact library.relations@iop.org.
