

BMJ Journals Archive Collection

Giving you lessons from history to own

DISCOVERIES
IN MEDICAL
RESEARCH SINCE
1840

Own it. Host it. Keep it. Forever.

BMJ|Journals

BMJ Group, a global medical publisher, has been leading the delivery of the highest standards of medical information and resources for over 170 years.

Proud of our heritage, we are committed to preserving historical content for all researchers and professionals in the medical field – to ensure that current information can be put into context and all the great discoveries in the world of medicine can be experienced all over again, in the present day. While working on safeguarding this essential knowledge for the future, we have made an extraordinary resource available to own – the digital archives of the BMJ Journals **entire publication history**.

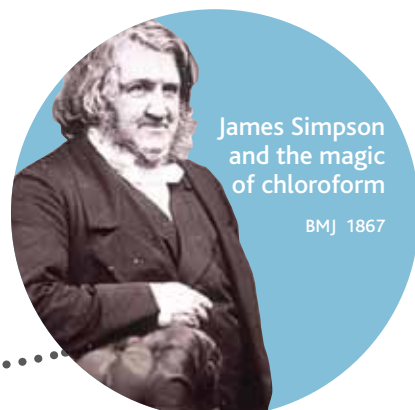

The **BMJ Journals Archive Collection** contains the back files of the majority of our titles – the flagship *BMJ*, first published in 1840, as well as a rich list of specialist journals.

Hosting detailed accounts of all the discoveries and advancements in key areas of medicine and healthcare, the **BMJ Journals Archive Collection** is an invaluable addition to any medical library and institution. With ownership of over a century of high-impact original research and unique case reports in over 560,000 articles, your institution can own, host and keep an impressive resource for contextualising current research, including:

- All the back stories of all the big stories in medicine and healthcare
- All our research that has contributed to the rise of evidence-based medicine
- All the records of clinical insight and medical research progress

Total number of articles			560,072

The BMJ Journals Archive Collection contains content published between 1840 and 2006.

Why preserve the history of medicine?

- Learn to protect patients more effectively by developing better research methods
- Learn from groundbreaking case reports
- Follow series of control trials to get a fuller view of how medical practice has been developing throughout history
- Have instant access to empirical research and witness the evolution of research reporting
- Expand competence and reference points using insightful peer reviews

Features & benefits for your library

- Perpetual access to the digitised archives of 23 BMJ Journals from volume 1 issue 1 to 31st December 2006
- Preservation of historical content – file, host and perpetually access
- Digital resource – both future-proof and economical in shelf space
- Complement to existing library resources, filling in gaps in records
- Set up usage tracking and search functions relating to your needs and the specifications of your chosen host platform
- Easy access to valuable content from a respected medical publisher
- Downloadable and printable articles, images and tables in PDF format
- Enhanced research experience driven by the functionality of the host platform
- Wide range of topics and developments

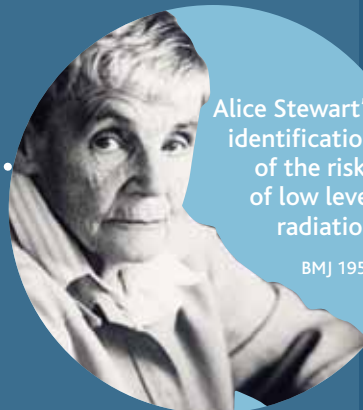

Florence Nightingale, pioneering nurse

BMJ 1892

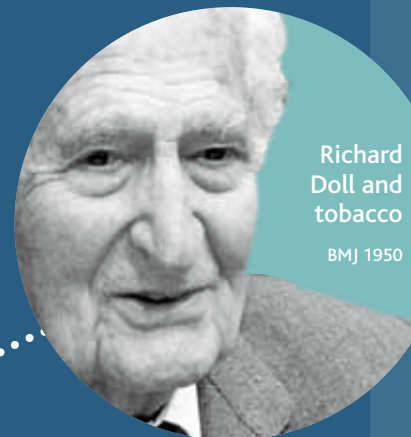

Alice Stewart's identification of the risks of low level radiation

BMJ 1958

Richard Doll and tobacco

BMJ 1950

The package

Get the complete Archive and own over 560,000 unique articles – yours to keep and host.

Purchasing options

You can purchase the entire archive for a one-off fee – no annual subscription or hidden service charges. Ownership gains you the right to file, locally and electronically host, and perpetually access licensed BMJ Journals archives.

Pricing

Pricing for individual institutions and consortia is available.

To request a quote or more information for the BMJ Journals Archive Collection package/s, please email consortiasales@bmjgroup.com or call 020 7383 6693.
